Groupify Definition of Done

The Groupify Development Team

Definition of done for tasks:
- ❏ Code satisfies the requirements of the task
- ❏ Code has been pushed to GitHub
- ❏ Functionality being implemented has been tested, manually at a minimum
- ❏ Functionality has been demonstrated to at least one other team member
- ❏ Sources cited in comments
- ❏ Clean code standards have been adhered to as closely as possible
- ❏ Feature-breaking bugs have been fixed
- ❏ Small bugs, if not eliminated, have been documented
- ❏ Non-functional tests (e.g. performance) have been considered and noted

Definition of done for user stories:
- ❏ All tasks for the user story have been completed
- ❏ New features have been demonstrated to the rest of the team
- ❏ Features are documented (in user manual, a README file, or Sprint documents)
- ❏ Features have been tested, manually at a minimum
- ❏ Features meet all acceptance criteria
- ❏ All code merges to master branch/hosted site successfully
- ❏ Tests still pass in master version
- ❏ Features are accessible to the user
- ❏ Features have been demonstrated to and accepted by Product Owner
